Jeff Summersill in the city, county and state aforesaid, who deposes under oath or affirmation and says:

That, I am Jeff Summersill, vice-president for Thomas R Summersill. On October 16, 2014 I received a ticket from Duda asking me to treat the state D field from 1 to 11 Block, skipping #2 block, planted with radish and to be treated with Baythroid XL. They did not say anything about workers being in proximity of the application area. When I got to the field, my surprise was that I had workers ~~working~~ planting on Field 'G' south of where I needed to fly. The wind was from the North, West at 5 m/h, I was loaded with 555 gallons of pesticide mix and no place to go with it. It is very dangerous to land loaded. I decided to leave an untreated portion of the crop (500 feet) as buffer area between the application area and the end of the field. I also noticed that supervisor Perry Young was supervising the planting and that nobody ~~waved me off even~~ after I circled one time over them. as I hereby swear/affirm that the foregoing statement is true to the best of my knowledge. a warning, therefore

Jeff Summers III in the city, county and state aforesaid, who deposes under oath or affirmation and says:

I continued with the application. The application was done with an Air Tractor (N802TA Airplane) from 9:30 to 9:45 am at a rate of 1.75 oz. per acre. to a total of 11.16 acres. After I landed, I received a call from supervisor Craig House and told me that the celery crew had moved to the field state 6 and ~~there~~ I informed him that I have already done with the application.

I hereby swear/affirm that the foregoing statement is true to the best of my knowledge.
